

We went to the HOME page and inspected it, after a little sniffing around we found this picture.

```

Select Command Prompt - python
>>> io = remote('home.realworldctf.com',1337)
[X] Opening connection to home.realworldctf.com on port 1337
[X] Opening connection to home.realworldctf.com on port 1337: Trying 54.193.199.110
[+] Opening connection to home.realworldctf.com on port 1337: Done
io.recvline()

```

Then we opened a python terminal and run the following commands: `from pwn import *`

`io = remote('home.realworldctf.com',1337)`

we found some functions on the remote fucn and run "recvline" several times.

```

>>> io.recvline()
b' / \\\ / \ \ \n'
>>> io.recvline()
b' / . \\\ / \ \ | \_\_ / | \n'
>>> io.recvline()
b' * _ _ _ * / / | \\\ \ \ _ / o o \ \ \n'
>>> io.recvline()
b' | / / / | \\\ \ \ _ \ \ \ \ \ \n'
>>> io.recvline()
b' / \ \ / / / | \\\ \ _ \ \ ' @ _ _ @ \n'
>>> io.recvline()
b' / / / / | \\\ \ _ \ \ | U \n'
>>> io.recvline()
b' | / / | \\\ \ \ \ \ | \n'
>>> io.recvline()
b' \ \ | / _ / | \\\ \ ) \ \ _ | \n'
>>> io.recvline()
b' \ \ \ \ ~ _ / _ _ | . - ; ( \ \ _ _ , \ \ ' \n'
>>> io.recvline()
b' ~ ~ . - ~ . | . - * _ { - , \n'
>>> io.recvline()
b' \ \ ~ _ . _ . ~ \ \ / \ \ ' \n'
>>> io.recvline()
b' \ \ } { . * \n'
>>> io.recvline()
b' ~ . ' - / / . - ~ _ _ . \n'
>>> io.recvline()
b' ~ _ / > . _ _ _ . \ \ \ \ \ \ \ \ \n'

```

```

>>> io.recvline()
b' |__|_ /\\_ >__ /___/ \\_/\\ / \\_/|_| |___/\\___ | \\___ /|___| \\___ / \\n'
>>> io.recvline()
b' \\/ \\/ \\/ \\/ \\/ \\/ \\/ \\/ \\n'
>>> io.recvline()
b'rwctf{1_R3alw0rld;together@HOME}\\n'
>>> io.recvline()

```

After a few times we found the Flag!
